MINNEAPOLIS, Minn., April 14.—[Special.]—A long and continuous cold wave has swept the whole state since Saturday night, and the result is that the entire vegetation is backward, and the prospects of the passage of the Red Cross are very poor. The cold weather has been accompanied by a heavy fall of snow, which has been very beneficial to the winter wheat, but has done considerable damage to the spring crops. Reports from all parts of the state show that the ground is frozen from one to two feet deep, and that the snow is from one to three feet deep. Many farmers have been unable to get on their land, and the seeding will be very late. Many farmers have not yet commenced to put in their crops, and the cold weather has put a stop to all work.
